

'On duty' training

**What do I need to do when I'm on duty?
What do the different officers do?**

**Saturday 20th March 2010
10am—1pm**

Walk through the roles on dry land.

Find out where equipment is kept and what is expected of you—from opening up and getting the boats out; to setting courses and starting the race on time.

Ideal for less experienced sailors doing their first duties or for new members who are not familiar with the Attenborough set-up.
