

Attenborough Sailing Club Web Cam

1

To gain full control of the club web cam, click on the [web cam](#) link on the web cam page. This will take you to the web cam web site / server “Make it visible!”.

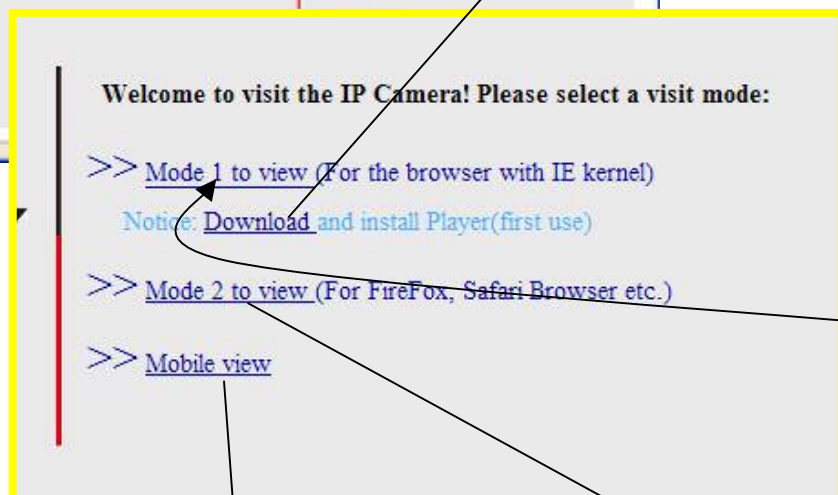

2

You will be linked through to this screen on the camera (web site / server).

If you are using Windows Explorer, on your 1st visit you will be asked to download a small program to control the camera. On subsequent visits a message may appear at the top of your browser screen asking for this “add on” to be run – allow it.

Once downloaded go back to **1** above and this time select “Mode 1 to view” as shown.

4

You may even wish to try out the mobile phone version.

3

If you are using other browsers select “Mode 2”.

5

Complete the access page using the same user name and passwords used to access the members section of the web site and provided to you upon joining the club. If you have forgotten, contact a member of the committee.

Tick the box to avoid typing in the user name & password on subsequent visits.

Attenborough Sailing Club Web Cam

The camera, (or what is looking at) and the camera control should appear:
